PROFILE

For two years, I've been immersed in the dynamic universe of MongoDB, Express.js, React, and Node.js – a journey where every line of code is a step into uncharted territory. I don't just write scripts; I architect experiences. As I evolve, so does my ability to blend logic and creativity into a harmonious symphony of digital innovation. Ready to infuse my unique energy into the world of MERN stack development, I am not just a learner; I am a storyteller crafting the narrative of tomorrow's web.

EDUCATION

Govt. Gournadi College and University

BA (Degree)   2022

Govt. Gournadi College and University

HSC   2016

CERTIFICATION

Programming Hero

Web Development (MERN)   *Sep 2023 - Dec 2023*

- **Front-end:** React, Tailwind, Boostrap, MUI, Css, Html
- **Back-end:** Node.js, Express.js
- **Database:** Mongodb
- **Deployment:** Netlify, Firebase, Vercel
- **Tools:** Git, Github, Axios, React-table, Sendjs, Tanstack-query etc

SKILLS

- **Programming-language:** Javascript
- **Front-end:** React,Tailwind, Boostrap, , Css, Html
- **Back-end:** Node.js, Express.js
- **Database:** Mongodb
- **Tools:** Git, Github, Axios, React-table, Sendjs, Tanstack-query ,Tanstack-table, Swiper.js, react-merquee etc.

LANGUAGES

- **Bengali**: Fluent
- **English**: Basic

PROJECTS

- **Harbar Homes**

It's a home buy & selling project.   2023 – Current
